

Daily Messages 2nd April 2020

Hello SLC,

The sun is shining today which is making me smile. I have been very busy today making a shopping list, estimating the cost of each item and adding it up to see how much it will cost in total. Have you been doing any maths at home? Maybe you could try this next time someone in your house goes shopping for essentials. It was very peaceful outside early this morning so I sat outside and listened to how many different animals I could hear. Is this something you might like to do? You could draw the animals or even classify them into groups.

Keep in touch and share all the different things you are doing at home.

Miss you all,

Miss Kendall x ekendall@handale.rac.sch.uk

Hello Year 5,

I've got my baker's hat on today; two quiches (1 x Lorraine and 1 x Stilton and broccoli) and two pies (1 x steak and 1 x chicken and bacon). The pies have turned out pretty amazing but unfortunately the quiches have soggy bottoms. Oh well- I'll use my growth mindset and make sure I learn and improve next time.

Stay safe,

Mr Bell lbell@handale.rac.sch.uk

Good afternoon year 3,

I hope you are all staying safe. How are you finding the home learning? I would love to hear what you have been up to in the spare time, have you been playing any family games?

Miss Tyson styson@handale.rac.sch.uk

Daily Messages 2nd April 2020

Hello Reception Children

Did you manage to say the months of the year yesterday? Well let's say them together now – are you ready?

January, February, March, April, May, June, July, August, September, October, November, December

Now ask your family for their birthdays – number and month. Draw your family adding their birthday below. If you can maybe draw them in age order! Who is the oldest in your family? Who is the youngest? If you want to draw me – remember I'm 21 and Miss Barwick is the oldest! Can you guess her age?

If you are missing our story sessions ask a grown up to have a look on www.booktrust.org.uk you will find some lovely reading activities and online stories too.

Take care of yourself and everyone in your family

With Love, Mrs Skirving and Miss Barwick eskirving@handale.rac.sch.uk

Good afternoon Year 4,

I hope you are all ok, it's nearly the weekend - not that it makes a difference what day it is at the minute. Today, I am writing some reports but I am going to go on a long bike ride tonight for some fresh air and to get me out of the house. Last night, Miss Price gave me a haircut so I think I might need to wear a hat when I finally venture outside. I would like you to all get creative from today until Sunday and recreate your own book. Pick your favourite book, adapt it and make your own version. Remember to use all of the skills that you know and show off – show me just how amazing you are.

Have fun.

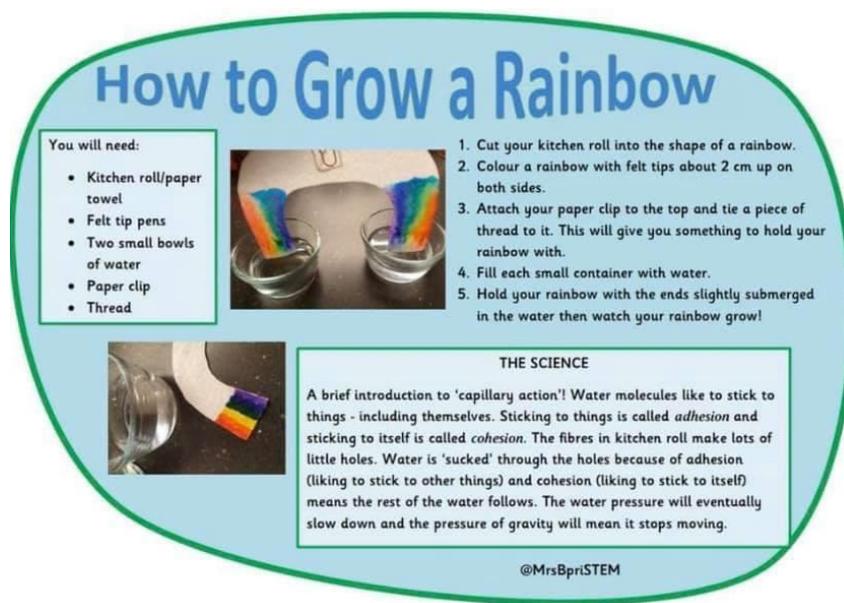

Mr Farrier rfarrier@handale.rac.sch.uk

Hello Year 3

It's been a lovely day today. Have you managed to get outside for some exercise? Today, as well as doing some work for school, I have been doing some baking with my daughter. We've made a jam roly poly. Have you been doing any baking or helping your parents and carers with any jobs around the house? We are also planning on having a go at growing a rainbow. I've put a picture with the instructions on if you'd like to have a go too.

This will be my last message to you before the Easter holidays begin because tomorrow it will be Mrs Brodie's turn to write your message. I hope you all enjoy two weeks with your families and have plenty of fun at home. I will still be checking my emails so if there is anything you would like to get in touch about, please do. I am interested in what you have been getting up to.

Mrs Porter rsmiley@handale.rac.sch.uk

How to Grow a Rainbow

You will need:

- Kitchen roll/paper towel
- Felt tip pens
- Two small bowls of water
- Paper clip
- Thread

1. Cut your kitchen roll into the shape of a rainbow.
2. Colour a rainbow with felt tips about 2 cm up on both sides.
3. Attach your paper clip to the top and tie a piece of thread to it. This will give you something to hold your rainbow with.
4. Fill each small container with water.
5. Hold your rainbow with the ends slightly submerged in the water then watch your rainbow grow!

THE SCIENCE

A brief introduction to 'capillary action!' Water molecules like to stick to things - including themselves. Sticking to things is called *adhesion* and sticking to itself is called *cohesion*. The fibres in kitchen roll make lots of little holes. Water is 'sucked' through the holes because of adhesion (liking to stick to other things) and cohesion (liking to stick to itself) means the rest of the water follows. The water pressure will eventually slow down and the pressure of gravity will mean it stops moving.

Good morning Year 1,

I hope you are well and keeping active. I have just finished doing the PE lesson with Joe and it was a good workout. I can feel my heart beating faster and my body is warm. Can you find out what happens to your body when you exercise? Why is it important to exercise every day? What changes happen to your body during and after exercise? Could you make a poster to share why it is important to exercise every day? Yesterday, I spoke to the teachers from school. We had a staff meeting using Zoom, and it was brilliant to see everyone! I have really missed being with the staff and children from Handale, so seeing the teachers made me happy. How have you stayed in touch with your family and friends? I will go out for a walk later today, talk to my friends and bake some scones. I haven't made scones in a very long time so I don't know how they will turn out! I did make carrot and coriander soup yesterday and that was delicious. Have you made any soup? Could you write a recipe for making soup?

Keep sending me your fabulous pictures and messages. I look forward to reading them.

Stay safe and have fun. Love, Miss Khanam x rkhanam@handale.rac.sch.uk

Hello Nursery Children,

Mrs Lister has been into school today with Miss Sweeney. She took in some boiled eggs for the children to decorate. We had a turn at decorating a boiled egg which we really enjoyed. Perhaps you could ask a grown up to hard boil an egg for you so you could try to decorate it. You could use felt pens or perhaps stick some things to it. We look forward to see any pictures of the eggs you have decorated. Please send your pictures to Mrs Lister's email address.

Love from

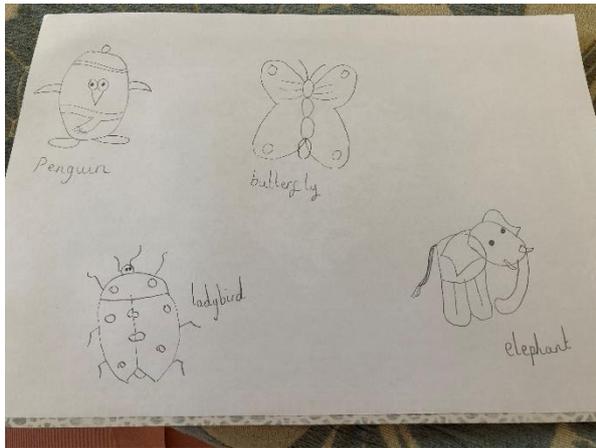

Morning Floppy and Afternoon Floppy xx clister@handale.rac.sch.uk

Hello Year 2,

I have been very busy this morning, I have been working on my Art work (we all know Miss Price isn't very good at Art don't we?). I think I have actually done a pretty good job. Why don't you have a go at working out how to draw different animals, I know how much you love Art lessons. You could even create your own animal posters/fact files, I would love to read them.

Thank you to those children who have kept in touch, it has been lovely hearing from you and it just makes me want to start teaching you all again. I miss watching you all learn and it has made me remember what amazing hard workers you all are.

Take care and keep safe, Miss Price rprice@handale.rac.sch.uk

Hi Year 3,

I hope you are all having a lovely week so far and are all safe and well. I have been doing some school work this morning and this afternoon I am going to help my children (Ruby and Oliver) with their home school work. I hope you are all still managing to do some work each day too. We made some salt dough earlier in the week and did handprints in them. The dough has finally dried so we might paint those today too. It would be great to see what you have all been doing too.

Mrs Brodie nbrodie@handale.rac.sch.uk

Hello Year 6

Hope you are all well. What I am doing today is sending you a challenge and an activity to keep you going. (I know, I know you have loads but sometimes a change is as good as a rest)

Firstly, have a look at the maths challenge below. Solve and send me your answers. Secondly, have a look at the Harry Potter at home website <https://www.wizardingworld.com/news/introducing-hp-at-home>

It has tonnes of activities for you to enjoy and some excellent learning opportunities. A great way to use your time wisely. Plus it gives you the opportunity to get a free audiobook of Harry Potter and the Philosophers Stone.

Stay safe all of you, Mr Emmerson pemmerson@handale.rac.sch.uk

Problems of the Day 2020 Day 4

1 What are the missing digits?

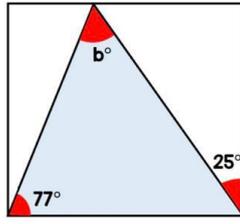

$$\begin{array}{|c|} \hline 3 \\ \hline \end{array} \begin{array}{|c|} \hline \\ \hline \end{array} + \begin{array}{|c|} \hline \\ \hline \end{array} \begin{array}{|c|} \hline 5 \\ \hline \end{array} = \begin{array}{|c|} \hline | \\ \hline \end{array} \begin{array}{|c|} \hline | \\ \hline \end{array} \begin{array}{|c|} \hline | \\ \hline \end{array} \begin{array}{|c|} \hline | \\ \hline \end{array}$$

2 Annie and Ron each think of a number.

I'm thinking of the number 6 

The product of their numbers is 762
Work out Ron's number.

3 Find the size of angle b.
